Next Door to the Postoffice,

SOLE AGENT. aug17

MR. DAVIE'S ELECTION.

A Review of the Contest—The Influences at Work.

The election which took place yesterday resulted in a larger vote being cast than was generally expected. Bye elections have not generally been noted for the large votes cast because public interest is seldom worked up to any extent over them.

No matter what the vacancy is, or how caused, it generally results in a candidate favorable to the party in power being returned. People knowing themselves pretty well by this time have come to look for this result and consequently there is no cause for excitement.

The election of Mr. Theo. Davie, whose seat had become vacant by the acceptance of the portfolio of Attorney-General, was an exception. There was no certainty in the public mind of his being returned. Mr. Davie is not a popular man and there was no mistaking the sentiment against him among the best class of people and which, notwithstanding the human tendency to keep in touch with the treasury, it was thought might be more than a match for the influences which could be brought in favor of him.

The opposition brought out an excellent candidate—a man of unimpeachable character, public-spirited, and possessed of means acquired by his own energy and enterprise; it was impossible to bring anything against him which had influence on the minds of thinking people. On the public platform his views were presented with a clearness which has only seldom been equalled by new speakers who have come forward in Victoria during the past few years. Dr. Milne at both his meetings made a good impression on the public.

For these reasons, although the odds were immensely in Mr. Davie's favor, his return was clouded in doubt. The odds in his favor were these: He had the government money-bags at his back. Anyone who knows the value of coin and the influence which an unscrupulous use of it has on elections, will appreciate the strength of the position. The government had only another session to run, which meant more treasury influence. It was a bye-election, enabling the government to concentrate its whole influence in favor of its candidate. It was an election at the capital where the official vote is strongest and where it can be registered around the polls like a round-up on a prairie. As a result of government influence he had many peculiar combinations to support him. Besides the natural born tories and the equally high-toned officials, in their own way of thinking, the government candidate had the democratic following of the saloons, and added to that the money-d influence which controls the Island Railway and the Albion Iron Works. Mr. Davie had naturally the solid vote, or nearly so, of the Catholic church. The government also took advantage of their privilege of springing the election upon the people, their activity on this occasion being in marked contrast to their usual policy. So well was this managed that Dr. Milne was scarcely ten days before the people, his opponent having canvassed for some days before he was brought out. The time for getting a committee together, canvassing over the list and canvassing was too limited to be effective in a close contest.

Among those who take an active and intelligent interest in public affairs Dr. Milne had a large majority. As a result of this his supporters carried all the public meetings with them, and at the voting yesterday these people came up and recorded their votes in his favor without being solicited. The majority carried to the poll by Mr. Davie's conveyances was probably three to one taken there by Dr. Milne's carriages.

Mr. Davie's large committee were very active and rustled up every vote which they thought they could count on. Votes were brought from Tacoma, Seattle, Port Townsend, Nanaimo, Vancouver, New Westminster and other places.

When the poll closed it was generally believed that Mr. Davie was elected. Some of his supporters calculated on 300 majority, which was the figure named in the *Evening Standard*, as the one generally expected by the party. Before the votes were all counted these opinions were changed. When six hundred ballots had been counted out Dr. Milne was running five and six ahead. Mr. Davie, who witnessed the count, believed he was defeated, and would probably have sold his bets for fifty per cent. of what he had staked in them. Before the remaining four hundred, which had been polled in the morning, had been counted, he ran ahead till his majority stood at 111. The vote was as follows:

For Mr. Davie	578
For Dr. Milne	467
Majority for Mr. Davie	111
Total vote	1045

As there are about 1400 registered voters on the list over and above the names of those who are absent or dead, it will be seen the vote is a moderately good one.

After the votes had been counted, speeches were called for by the crowd outside the hall. Mr. Davie thanked the 578 who had supported him and said he looked upon his majority as an endorsement of the policy he had announced. The large vote polled by Dr Milne was due to his personal popularity and not to the cause he espoused (cheers).

Dr. Milne being called for said that now the battle was over all should be as good friends as ever (hear, hear). He thought that for a new hand and having only had a few days to prepare for the election he did very well (cheers), although he had expected a smaller majority for Mr. Davie. He thanked heartily all who had voted for him or assisted him in the campaign (cheers).

Later in the evening a number of boys and some of Mr. Davie's most enthusiastic friends serenaded him with a brass band. They next visited the house of the premier on Birdcage walk. Mr. Robson made a short speech to the crowd in which he said (his) was "a victory of truth over falsehood, statesmanship over demagoguism. Perhaps the majority was not as large as the government had a perfect right to expect."

LILLOOET ELECTION.

To the Editor of The Times:

Sir,—We all regret the loss of our member, the Hon. A. E. B. Davie, which will call for an election at an early date. The cry is who is coming out. Can it be Billy Morrison. No, no, we are tired of the government. He is something like Ned Allen. Ned was elected in 1882 to support the opposition and he sat with them for two years when his son was discharged as road superintendent and there was war in Lillooet. His son was appointed a mounted constable, the government paying him $1500 a year. After sitting one year in the House of Assembly, he comes back condemning the Beaven party. I am afraid at next election poor Ned will be left at home and the report is out that Ned is going to pull for Morrison. The report is also out that Mr. William Sent is coming out as an opposition candidate. He is a man respected by everyone and will do all he can for the district. It is also said that John R. Williams is coming out as an opposition candidate. The people of Lillooet are determined to elect a man that will support the Beaven party. I have heard people saying most all over the district, we must a change of government. The government has built roads to every man's door in the Dog Creek section; and not only that, but roads to people's hay stacks. There are nine settlers in Empire valley, but because they are not government men they have no roads. Unless a man was a solid voter for government he could not get work on the roads. MINER.

Lillooet, Aug. 10, 1889.

TALK ABOUT TAXES

To the Editor of The Times:

Sir,—In my last communication to you I promised to send Dick a few items, but I happened to meet him again and he says he would prefer the items verbally as they are easier understood than on paper. Moreover, he seems anxious to see our little pow-wow in the Times, if you will be so obliging; not that we expect you to endorse anything that we should say, but he tells me there are so many who take a deep interest in this matter who have not access to the blue books, besides sparing the government some little expenditure in sending the accounts around. Well, Dick, since I saw you last it occurred to me that maybe you would bring the customs up again, so I got partially prepared by enquiring into this from parties well informed on the subject of taxes. Some say, if we received the duties direct it would be a tax. Others say, the province would be in a queer fix if it was not for the customs, and some think it a kind of give and take game. So it would if all things were equal, and all articles taxed were produced in the country; but there are many things not produced in the province and never will be, which we pay duty on, and things are far from being equal. Yes, Dick, there is sound logic in your arguments. Some men contribute hundreds of dollars annually to the customs, and others just as many cents, and this kind of a tax is most oppressive on those who can least afford it—that is the large families. I know the *Colonist*, for certain purposes, was quick in taking advantage of John Robson's misleading figures during the late bye-election. They told the people that Mr. McIlmoyle's taxes were but a flea bite, whilst Tolmie paid more taxes than anyone in Victoria district. At the same time there were scores of farmers paying more taxes than Tolmie in the district, and more then he is likely to pay if he don't hurry up. The tariff works two ways, it protects and creates a revenue. Revenue means taxes; the more consumed the more the revenue, and who are the consumers? The families of course; whether they produce or not they have to consume. Yes, the duties are near one million dollars a year, and instead of Mr. McIlmoyle's taxes being a flea bite I've been told the latter paid near $500 on his purchases of all kinds last year, or about $45 per head for himself and family. Well, we will leave this matter drop for the present. If what we have been saying is not strictly true, some one may enlighten us to the contrary. Now we will proceed with the items. The first I shall give you, Dick, I can't very well comprehend. It will be something for the electors to study over. It is from the accounts of 1887-88: Hon. John Robson, traveling allowance to Ottawa, 35 days at $10 a day, railway fare, $140; total, $490; ditto, New Westminster 17 days, $4, fare, $22; total, $90; ditto, Nanaimo, 6 days, at $4 a day, fare, $10; total, $30. Again taken from the public accounts from July to December, 1888: Hon. John Robson, traveling allowance 55 days at $10, fare, $147.50; total, $697.50; ditto, New Westminster, 14 days at $4 a day, fare, $29.50; total, $85.50. Now, Dick, do you wonder at the taxes being increased. Yes, the Provincial Secretary has $3,000 a year, the sessional allowance of $400 and refreshments. I saw there was a deputation of Union Coal miners, who waited upon the Premier the other day representing the necessity of a school being established at the above place as there was forty children of proper age, but the honorable gentleman gave them to understand the treasury was exhausted. We are fortunate, Dick, the Premier is not a young man; if he was there would be no end to shortlying at our expense. A penny saved by some folks is better than a penny earned, and on those little trips they can always lump the expenses and keep adding a little to the pile—$10 a day to Ottawa, ten meals a day at $1 a meal—good living. I suppose, Dick, the honorable gentleman leaves his salary at home on those occasions. The worse feature of this is his colleagues and other officials are apt to follow suit, if any of them feel in need of a jaunt. They have merely to fish up a little government business, and they have a trip profitable in both ways. No, Dick, there is no one to question these items in the House; everyone is dumb. I suppose each one anticipates having a finger in the pie some day. In my next I'll answer that question about the Government Boarding House. G.

Long Steamships.

The rapid progress of invention and of notions of size in these modern days is illustrated by the fact that all the European steamship companies are petitioning New York city to lengthen out her docks, which are totally insufficient for the new monsters arriving daily. The "City of Rome," the "City of Paris," the "City of New York," have long been inconvenienced and endangered by the shortness of the docks. The other day the "Normandie" had to anchor in midstream because the current was carrying her upon the unprotected "City of Rome." In a short time the White Star Line will be running to New York the "Majestic" and "Teutonic," and the French line the "Touraine," all of which are much longer than any heretofore built. These, with the new German monsters, make up a fleet so numerous that their owners are in a position to demand the dock improvements so much needed. Steamships 600 feet long will soon be common.

The Petroleum Supply.

Professor John F. Carrol, assistant geologist for the State of Pennsylvania, is quoted as saying that the supply of petroleum was last year 5,000,000 barrels less than the demand, and that the shortage is bound to become more pronounced, in consequence of the failing condition of the different oil fields. A few years ago stocks were piling up at the rate of 2,000,000 barrels a month, or almost that, whereas they are now being decreased by something like 1,000,000 barrels a month. There are now, it is true, about 12,000,000 barrels of petroleum in tanks in the Ohio field, but this is because Ohio oil has not been used extensively as a illuminant. But the Ohio field, Professor Carrol believes, will not prove to be so extensive or productive as many suppose. No field thus far known, or likely to be ever known hereafter, will equal the yield of the Bradford, which has produced 50,000,000 barrels of oil, and at one time yielded as high as 105,000 barrels every twenty-four hours. Its production is now down to 18,000 or 20,000 barrels a day, and the pool is being drained to the dregs. Possibly there are some pools of 1,000,000 to 3,000,000 barrels in some of the old fields, and in new territory not yet opened up, but the prospects that such is the case are growing less every day. Kentucky may become something of an oil producer, though nothing great, for the oil-bearing sands underlie a portion of that State, and lap over into Tennessee. Texas has some oil, but the experiments undertaken in that State by Professor Carroll for others convinced him that the petroleum does not exist in paying quantities.

TO THE TIMES ONLY.

Accident at the Westminster Junction—A Man Run Over and Killed.

A Morning Newspaper for New Westminster—Hon. McDougall on School Question.

Special to The Times.]

Montreal, Aug. 22.—Montreal has another mystery. A woman, supposed to be the wife of an American giving the name of Lyons, is missing. The dock laborers saw a couple go out on a wharf late on Saturday night and afterwards heard screams of a woman. A foul murder has doubtless been committed.

SUIT FOR DAMAGES.

Mrs. Webster, whose husband was killed at the Temple building elevator some time ago, has taken action for $11,000 damages against the Methodist church of Canada and the trustees of James street congregation, owners of the building.

BETTER THAN EXPECTED.

Winnipeg, Aug. 22.—Crop reports from all parts of Manitoba say that wheat harvesting is two-thirds finished, the crop turning out much better than expected.

FARMER EXCURSIONS.

Two hundred people left Toronto by the first of the series of farmer excursions to Manitoba on Tuesday evening. They will reach the city to-morrow.

PUBLIC MONEY FOR HORSE RACING.

Quebec, Aug. 22.—The local government has contributed $800 in prizes toward the local horse races now being held on St. Charles course.

MAY NOT ACCEPT.

Toronto, Aug. 22.—There is some speculation in Catholic circles as to whether or not Bishop Walsh, of London, will accept the proffered honor of the archbishopric of Toronto.

THE ROYAL CITY.

Run Over and Killed—Exit "Guardian"—Municipal Elections.

Special to The Times.]

New Westminster, Aug. 22.—At West minster Junction yesterday afternoon J. O'Donnell, well known pioneer of the province, accidentally fell on the railway track from the platform of the caboose when the train was in motion and was instantly run over and killed.

The election to fill two vacancies on the aldermanic board which took place yesterday resulted in the return of Messrs. Keary and Shiles. Following is the state of the polls:

W. H. Keary	105
B. W. Shiles	94
W. J. Harvey	55

A company, formed to publish a new morning daily newspaper, completed the purchase of the *Mainland Guardian* plant to-day and exit *Guardian*.

FROM THE CAPITAL.

Hon. Wm. McDougall on Separate Schools, Etc.

Special to The Times.]

Ottawa, Aug. 22.—Hon. Wm. McDougall in an interview with the Times correspondent says that according to the constitution the Manitoba legislature has no power to abolish separate schools or interdict the French as an official language. Neither provincial or Dominion legislatures can change the fundamental law in this regard.

A large number of men left last night to work at Donald, B. C., for Mackenzie, Mann & Co., in connection with the C. P. R. branch.

COMMENTS AND NOTES.

Across the Atlantic—The Electric Mail—Victoria's Prosperity.

In these days of constant travel, when home-keeping folks are few, and moss is getting rare, and wit has acquired a cosmopolitan flavor, can anything new be said of a voyage across the Atlantic? From Sandy Hook to Queenstown there are no visible landmarks, but the underlying currents and banks are definite enough to give distinctive features even to the most seemingly monotonous voyage across the ocean. The gulf stream emerges from its ordinary reclusion in physical geography text books and takes an active part in determining our own physical existence each day. With the aid of a southern wind it is able to convert the bleak northern ocean into a balmy tropical sea, and in the middle of the broad Atlantic we lounge about in our deck chairs and bask in a sunshine which, if not more brilliant than the sunshine which envelops Beacon Hill, is far warmer, because not tempered by the cool breezes which blow from the snow-covered Olympians. For the first three days out from New York whatever is unexplained by the gulf stream is quite easily accounted for by the Newfoundland banks. Haziness, rain, fog, are all attributed to them by the modern faithin the necessity of natural causes as explanations of the effects we observe. This much at least science has achieved. Hidden but still natural influences are taken for granted when we do not perceive them, and supernatural agencies of every kind are disregarded. Science also explains the most wonderful seeming paradoxes. For instance, it is said to be possible to make faster progress in the teeth of head winds than when the wind is apparently favorable and the well-filled sails are aiding the powerful engine. For the winds can sometimes be made more useful in creating draughts and causing the fires to burn more fiercely and clearly. The frequent and rapid changes in the weather, from clear skies and the bluest water to drizzling rain, and an ocean gray and wan, back again to sunshine once more, are partly explained by the rate at which we travel. The average run of the Canard steamers is about 300 miles a day, and storms, that in earlier times would have hovered long about a vessel, are now overtaken and passed through; but alas, the quiet waters are also quickly left behind. Calculations as to the speed we are making are a very favorite occupation and may perhaps be supposed to diminish the element of chance and give a scientific basis to the bets that are daily made. Each night in the smoke room there is an animated auction sale of tickets bearing the favorite numbers, and the next morning, when the daily reckoning is made, the lucky winner takes the pool.

The mail service on board is admirably adjusted, although, instead of being periodically delivered, letters apparently drop from the clouds all along the course. "The electric mail just arrived!" cried a deputy postman one day, stopping before an elderly gentleman and lady and their melancholy son-in-law. "How wonderful are the powers of electricity! The science is only in its infancy, and here are letters delivered in mid ocean! Mrs. B.? No; there are no letters for you to-day. Mr. B.? No. I have none for you. But Mr. Johnson," he continued, addressing the younger man, "do you spell your name with a t or without?" "Oh, with a t," said the melancholy man, whose faith in the powers of electricity was too limited to conjure up the animation of hope. "With a t? Well, there is something for you." It was delightful to see the smiles that adorned on the young man's face as he recognized the handwriting on the envelope, and then discovered that besides a letter it contained a recent photograph of his wife and children. The postman was as much interested in the episode as his professional brothers in Victoria would have sympathy. Indeed, all the passengers felt happier after witnessing so pretty a scene. Nothing of course can supply the blank in the lives of us Victorians caused by the non-delivery of the Daily Times, which does not yet avail itself of the magic of electricity to overtake its subscribers. A century hence newspaper balloons will probably be despatched daily from New York, but at present the best substitute for the Times is a bi-weekly sheet of news and criticism, which is suspended for perusal at the head of the stairway. Democratic sentiments prevail on the deck of an Atlantic steamer and the millionaire speculator in lard and pork, with his mansion on the shores of his own artificially constructed lake, actually associates on equal terms with the owner of five of the candy and cream-soda stores in the American city which is their common home. And what is perhaps more enjoyments and privileges, (under which category neither the hospitality of the lieutenant governor nor of the admiral was forgotten,) and last but not least, the beauty of situation and scenery, have been appreciated upon with all the eloquence at command, and, as a result, there should be a very perceptible increase next year both in tourist travel and in the capital seeking investment. It was very gratifying to hear on outside authority, from a gentleman who spent some months in Vancouver last summer, that he hears from several sources that far from the vitality of Victoria being sapped by her young aspiring rival on the mainland, there is a general impression in the east that Victoria's prosperity is more than proportionately increasing. The Americans on board all declare themselves anxious to have free trade with Canada. They have rocked the cradle of protection, they say, long enough, and their industries are now not only sufficiently strong to stand alone, but are ready to compete with those of other countries in foreign markets. To put a duty on British Columbia coal is, they say, suicidal on their part. They are casting longing eyes on the raw produce of our province, and they are ready to believe what they wish, namely, that under one name or another the union between Canada and the States is likely to become a closer on. The French phenomenal still, their wives recognize one another's social existence. Why, on terra firma, the one may reasonably aspire to be a leader of society, while the other dare not hope to be admitted within its pale, is one of the things which, as Lord Dundreary would say, no man can understand.

Your correspondent has already had many opportunities of spreading the fame of Victoria far and wide, for all parts of the world are represented on board ship. The equable climate, the steady continuous progress of the city, its socialment, they say, would become insignificant were Canada to enter the union. The Canadians on board seem ready for reciprocity of trade if that can be purchased by anything short of such a step. Annexation has not a single supporter here, which will be reassuring to Mr. McLeod, although Ontario and the Maritime provinces are represented. They will not go beyond a possible Canadian national independence which will enable them to make what commercial treaties they wish with the United States. Some of the Americans feel rather sore because the C. P. R., which is not bound by their interstate commerce law, is able to give lower rates than their own lines, and is interfering with their carrying trade. They regret the short-sighted policy of their own country, which did not long ago subsidize the American mail steamers between San Francisco and Australia, and make that a first class line such as they anticipate the line between Vancouver and Australia will become.

Cricket in the morning and music at night bring many of the heterogeneous elements on board ship into friendly intercourse. Home industries are encouraged for the best of all reasons and wickets, bats and balls are quickly constructed by the sailors and accepted without criticism. Australians and Canadians play in a good English style. The Americans put in a fair number of runs, but they are neither to the manner or expression born, and the baseball terms, such as pitcher and catcher, slip out unconsciously.

The time spent in crossing the ocean is a sort of interval in existence, and as the ship is cut adrift from all moorings so do we seem to be detached from all that is solid and real in the past and in the future. It is only as we approached Queenstown that this stagnation of feeling is disturbed, that the threads which hold us in our places were themselves once more into firm bands, and joys, hopes and duties, alike familiar to us, again reassert themselves. SPECTATOR.

BEHRING SEA QUESTION.

The British Government Declines to Protect Sealers.

Ottawa, Ont., Aug. 22.—Important dispatches from the British Government arrived here Monday regarding the Behring sea difficulty, and Sir John Macdonald, who has been spending the holidays at the seaside, has hurriedly started for Ottawa. The cabinet met to-day to consider the dispatches which, it is learned, say explicitly that the British government declines to allow its Pacific squadron to afford protection to Canadian sealers found in the Sea. The Dominion Government has been requested to prepare a schedule of damages claimed by owners of seized vessels. It is intimated in the advices received that negotiations are now in progress between the United States and the British Government to effect a settlement of the difficulty by arbitration. A member of the cabinet said he had not the least doubt that in the end the Behring Sea question would be settled to the satisfaction of everyone interested, and that before very long.

The Medical Convention.

The medical convention at Banff is described as one of the most successful yet held. The papers read were of a high, scientific character and provoked much discussion. The meeting at Banff of so many medical men from all parts of Canada and the United States will do much to advertise Canada's national park and health resort, and it is needless to say the medicos will be instructed and benefitted by their trip to the west.

Dr. Childs Pile Ointment.

Instantly relieves and permanently cures piles, pruritus and all hot and itching sores and eruptions. Price $1, of druggists. d&w

The Pianoforte.

Miss Laura M. Adams, teacher of pianoforte, 34 Cadboro Bay road.

GENERAL DISPATCHES.

A Man Who Fasted too Much and Prayed too Little Meets a Natural Fate.

Mrs. Maybrick's Sentence at Last Commuted to Imprisonment for Life.

By Postal Telegraph.]

New York, Aug. 22.—The British steamer Alene, just in from West India ports, reports that on August 16th the American schooner Lizzie May, while at anchor at Jer Emo, was run into by the Haytian man-of-war Toussaint L'Ouverture and had a large hole stove in her starboard bow above the water line. The man-of-war left the same night without ascertaining what damage had been done to the schooner. The schooner's captain has made a protest through the American consul.

VILLARD ON TOP.

New York, Aug. 22.—Union Pacific today received a block of 60,000 shares of Oregon Railway and Navigation stock which was owned by the Oregon and Transcontinental. Payment was made in cash and the stock was at once pledged. This is the first step towards carrying out the deal concerning the assets of the Oregon and Transcontinental. The other steps in the deal to-day was the dissolution of injunctions obtained by the Smith faction to restrain Villard and the Transcontinental people from disposing of the assets above named.

GETTING THEM ALL.

A special from Purvis, Mississippi, today says Red Renaud was this morning found guilty of participating in the prize fight and fined $500. Renaud has appealed to the Supreme Court. He was released on $500 bonds and was also required to furnish $200 bail for his appearance in December before the grand jury as a witness.

PECULIAR ACCIDENT.

Los Angeles, Cal., Aug. 22.—Last evening while J. C. Byram, a prominent real estate man, was attending his horse in his stable the animal threw up his head in such a way that Byram was knocked senseless and from injuries received he died without regaining consciousness.

KILKAIN IN A BOX.

Baltimore, Aug. 22.—The court this afternoon turned Jake Kilrain over to deputy sheriff Child of Mississippi. The deputy will try to start for Mississippi with the prisoner at two o'clock, so as to arrive home by Saturday morning, enabling Kilrain to get bail before adjournment of court.

A PHASE OF THE TERRY TRAGEDY.

Stockton, Cal., Aug. 22.—At 10 o'clock yesterday morning was the time fixed for the preliminary examination of David Nagle on a charge of murdering Judge Terry. At the appointed time the prisoner was conspicuously absent, but Sheriff Cunningham was present at the hour mentioned. Justice of the Peace Swain said to the sheriff, "The case of the people of the State of California against David Nagle, charged with murder, was set for this hour for a preliminary examination. Is the defendant in court?" "No, sir," answered Sheriff Cunningham, who then handed a document to the court to the effect that it was impossible for him to produce Nagle because the latter had been released on a writ of *habeas corpus* by the United States jurisdiction and handed over to a United States marshal's custody against Cunningham's will and protest. The examination was then continued until next Friday.

MURDEROUS BURGLARS.

Brooklyn, N. Y., Aug. 22.—Christian Wilhelm Luca, a well to do German grocer, who lives with his family over his store on the corner of Jay and High streets, was literally hacked to pieces with a bowie knife in the hands of Chas. McElwain, who burglariously entered his store at 3:30 this morning. McElwain had two accomplices, and the three burglars entered the yard in the rear of the house and put a ladder up to the second story window, opened the window, crawled in and made their way to the front room. As they reached the passageway the noise awakened Luca, who got up to see what was the matter. On entering the dining room he saw McElwain and grappled with him at once. The noise of the fusale aroused Mrs. Luca, who rushed into the room, followed by her young son. Luca was then down on his knees and his assailants was striking him repeatedly with a big knife. Mrs. Luca caught the murderer by the arm, but McElwain pushed her off, shouting, "let go or I'll cut you open as I did him." McElwain then jumped out of the window and ran down the street. Luca died ten minutes afterwards. As McElwin ran down the street he was caught with the bloody knife in his possession and taken to the station house. At the station house he was fully identified by Mrs. Luca, and after some hesitation McElwain confessed he stabbed Luca and told where lived at 148 High street. Martin Diven, one of the two men who waited outside the house while McElwain entered, was arrested this morning in New York and was arraigned in the Essex Market court and handed over to the Brooklyn police. Diven made a confession to Inspector Byrnes, showing his implication in the attempted burglary, but said he knows nothing of the murder beyond seeing McElwain jumping from the window.

LOSS BY FIRE.

Goshen, Ind., Aug. 22.—An unchecked fire at Middlebury, this county, to-day destroyed the Masonic Hall and a large portion of the business section of the town.

LIFE ON THE RAIL.

Moberly, Mo., Aug. 22.—Early this morning a freight train on the Missouri, Kansas and Texas Railway was wrecked seven miles from here. Engineer W. F. Bitter of Hannibal, Mo., and fireman E. E. Bennard of Mendota, Ills., were both instantly killed.

A EUROPEAN RUMOR.

Paris, Aug. 22.—The *Rappel* says the rumor is revived that the German emperor, who feels so secure of the situation in Alsace and Lorraine as to openly declare at a public banquet in Strasburg that he feels at home there, will propose to the nations of Europe a general disarmament. This is not enough, says the *Rappel*. He must give proof of his desire for peace by restoring Alsace and Lorraine to France. In no other way can he conquer the deep-rooted distrust of the French nation and induce it to throw away its arms.

ORDERLY STRIKERS.

London, Aug. 22.—The directors of the dockyards received a deputation of their striking employees to-day and submitted to the men an amicable proposal for a settlement of the strike, which will receive the consideration of the strikers' committee. Over four thousand men marched in a procession to-day, observing perfect order.

MRS. MAYBRICK SAVED.

London, Aug. 22.—It is officially announced that Mrs. Maybrick's sentence of death has been commuted to penal servitude for life.

SOME REMARKS.

The new Attorney-General had the percentage of a hundred votes from the start, for we are not to suppose that the Premier, his colleagues and those who are dependent on the bounty of those gentlemen, voted other than for the government candidate. Besides, we are told that the Attorney-General worked his cause for all it was worth, the same as characterizes him in pushing the cause of a client, and so we may presume that the suffrages accruing from the effect of his indefatigable electioneering industry were very considerable. There is nothing therefore in the character of Mr. DAVIE's majority to startle the opposition. Mr. DAVIE's victory is practically a moral defeat. The government, still in possession of the "flesh pots," might well exclaim, as did PYRRHUS after the battle of Asculum, "another such a victory and we are undone." If Mr. DAVIE is the immaculate individual he has been painted by his friends, if he is the useful legislator his colleagues have described him to be, Victoria should have elected him by a larger majority. As it is he has run behind his ticket. An untried man, unfamiliar with the art of placating the mob, met him in open fight, and Mr. DAVIE's majority is 111, a vote he could depend on under any circumstance. We said at the the start, and we have no reason to modify our views, that we believed the Davien platform to be a fraud. The proof is as complete as circumstantial evidence can make it. Mr. BEAVEN also demonstrated that if ever there was a legal blockhead, a man with an uncontrollable penchant for class legislation, and a man whose sole purpose in introducing certain bills in the house was to shape the law to meet private ends, that man was the acting Attorney-General, and yet he is still able to rustle up a majority of a hundred odd. Such results in politics, however, are not uncommon, but they may well set political orators and writers to thinking that the "party affinities" of the average elector are too strong to be broken by argument. The legal professions act itself should have killed Mr. DAVIE, and we say it without prejudice, while the fact that he undertook to justify it on the ground that the intending legal practitioner should reside a year in the province to establish a character, was unworthy of Dodson & Foggy. This is a free country. There is no law to prevent a man from making a fool of himself, but candidly when we behold the indiscriminate abuse of the franchise, the aphorism that the "best government is a wise despotism" strikes us with overwhelming force. We shall only say further that though beaten, we are not discouraged. A general election will be held next summer, when the four Victoria representatives along with the other members of the legislature, will, by the dissolution of the house, become private citizens once more. There will then be a general fight all along the line, and the sides will be more equally matched. At all events one of the combatants will not be strongly entrenched while the other is fighting on open ground, as in the contest just ended.

THE TROUBLES OF "TRUSTS."

The popular idea that a "trust," particularly one as powerful as the Standard Oil Trust, has a good thing—the "cinch," it may be called—on the consumer, is not wholly borne out by facts. The price of the "cinch" is eternal vigilance and heavy pecuniary disbursements. This is brought about in this wise. Business does not remain stationary. It either advances or retrogrades. Fresh discoveries are of frequent occurrence, and these almost invariably benefit the consumer, either as cheapening the article in use or furnishing a substitute with superior advantages. Trusts must be on the lookout for improvements of this character, and engross them, otherwise they are no longer in a position to control the market. The latest discovery, and one which particularly affects the Standard Oil Trust, is that of how to completely extract sulphur from coal oil. The process by which the sulphur is extracted, is said to be of the simplest possible character, and the wonder is it was not sooner discovered. The new Paragon Oil Company, of Toledo, is the repository of the secret, and although their investment does not exceed $200,000 in all, such is the value of the discovery that the Standard Oil Company has offered $2,000,000 for it. It is not at all likely that the offer of the latter will be accepted. The discovery is too big a thing for the Paragon Oil Company, and so it remains to be seen whether the transference of the oil trade from Standard Oil to Paragon will be any real benefit to the consumer. On the whole, while we may make up our mind that the discovery is an important one, we need not flatter ourselves that the Paragon Oil people are one whit less rapacious than the gigantic combination which for years past has regulated the price of our chief illuminator.

FEMALE SUFFRAGE IN W. T.

The Washingtonian solons being sadly beset by the advocates of female suffrage, have decided to have the vexed question settled by the votes of the people—the men. Now, we are of the opinion that this is not the proper method to employ to settle the question of female suffrage in Washington Territory. The sex should be permitted to vote, too. It is not the opinion of "horrid men" which is wanted in this matter, but the opinion of our mothers and our sisters and our aunts. It is the opinion of these very respectable people, the people to whom we men are indebted for the larger proportion of the comforts of this world, whose opinions are wanted. Women are unreasoning, but we doubt if they are much more so than the average male blockhead who figures in the elections of the period. Our objection to female suffrage lies in what we regard its superfluousness, inasmuch as what is to the interest of the wife and sister is of interest to the husband and brother. We are not to suppose that men blessed with the right of franchise are going to neglect the interest of their female relatives. Still, as we have said, if the women want to vote and will so express themselves at the polls we see no harm in the experiment being tried. If, however, anyone supposes for an instant that the right of franchise extended to woman will bring about a moral revolution in affairs they are doomed to disappointment.

SUNDAY LAW IN CALIFORNIA.

"It is a singular fact that California has no Sunday law. There was such a law, but it was repealed in 1883; yet it cannot be said that there is any less observance of Sunday since the repeal of the law. On the contrary, an investigation shows that Sunday is observed more as a sacred day the present year than it was the year the law was repealed."

This law was enacted, we believe, an I went into operation in 1881. The legislature passed it in deference to the appeal of the churches. The first Sunday that it went into operation in San Francisco there were over one hundred arrests made chiefly among the saloon keepers. As no jury could be found which would convict under this law the delinquents were discharged. We were not aware, however, that the law had been repealed.

EDITORIAL NOTES.

A young man in Liverpool stole £100, part of which he spent in buying a watch and chain and a diamond ring. On account of his "respectable appearance" he was released on bail. As the respectable appearance was largely due to a judicious investment of the £100, the case is not wholly unlike that of the man who killed both his parents and then asked to be treated leniently because he was "a poor orphan."

Spain is no longer a maritime nation, and she takes very little interest, therefore, in the Behring Sea question. Her representative in the United States, however, does not hesitate to express his concurrence in the Canadian view of the matter. In a recent interview with a New York Herald correspondent he said: "The United States might as well think of closing the sea about Key West and Cuba as attempting to claim jurisdiction over Behring Sea."

The Admiralty authorities have sent a cargo of coal from Newcastle, around Cape Horn, to Victoria, B. C. for the fleet, although coal can be had almost for the asking on Vancouver Island. It is very apparent that "my lords" are not acquainted with the resources of this country. During the war of 1812 the Admiralty sent lumber to Canada for the construction of gunboats to be used on the lakes, and, with a delicate regard for the convenience and comfort of the crew, caused fresh water tanks to be built on these lake vessels. So that after all the naval lords are sustaining their reputation for overdoing the thing.

When one reads of the Emperor of Austria taking his position before a flag and watching the Emperor of Germany marching past and saluting at the head of a body of troops, and then of the Emperor of Germany taking the position at the flag and gravely watching the Emperor of Austria march past at the head of the same body of troops, he is irresistibly reminded of children playing at soldiers. "There, you have had your turn, now it's my turn." For the aged Emperor of Austria to play at soldiers with the young Emperor of Germany smacks somehow of amiable condescension, if not of lack of dignity.

DR. Talmage, the noted preacher, has a very exalted opinion of the press. He says: "I have been betrayed by every class of men in the world, but never by a newspaper man, and I believe there is a spirit of fairness abroad in the newspapers that is hardly to be found anywhere else. There is no man, however poor, if he has been done an injustice, that can not get himself set right by the newspaper. A good newspaper is the grandest temporal blessing that God has given the people of this country. All the people read the newspapers, and the newspapers furnish the greater proportion of the reading to the people. They don't read books. The old people look for the deaths, the young for the marriages, the business man reads the business and financial columns, and those who are unemployed read the want ads. Great libraries make a few intelligent men and women, but newspapers lift the nations into sunlight. A vast improvement will be made in the newspapers when the universities have departments where young men are prepared for editorial and reportorial work. The universities have schools of law and medicine, and why not of journalism." The Oregonian commenting on the latter statement is not prepared to agree that a full-fledged newspaper man can be turned out by a university. The Oregonian is of the opinion that the best school for the journalist is right in the office of a great, honest, able newspaper, where merit is as readily recognized and rewarded as in any of the other professions.

There are not many men in the world who could acquire sole possession of a railroad and then forget that they owned it, but Russell Sage, the New York broker, appears to be one of them. Some time ago a road in Iowa was leased to one of the big through lines, but, as it did not pay, the lease was thrown up. The trains then stopped running and the people petitioned the railroad commission to compel the road to resume business. The commission, however, could not find the owners, but ascertained that somebody—it was forgotten who—had taken the road over for debt. Finally, after an immense amount of trouble, it was learned that Mr. Sage was the owner. He had taken the bonds, put them in his safe, and had forgotten all about the transaction. The possession of a railroad or two is evidently a trifling matter to him.

CITY AND PROVINCE.

—We all have good taste in deciding how somebody else should dress.

—James Shannon, Leeskdale, writes: "For many years my wife was troubled with chilblains, and could get no relief until about two years ago; she was then not able to walk, and the pain was so excruciating that she could not sleep at night. Your agent was then on his regular trip, and she asked him if he could cure her. He told her Dr. Thomas' Eclectric Oil was a sure cure. She tried it, and judge of her astonishment when, in a few days the pain was all allayed and the foot restored to its natural condition. It is also the best remedy for burns and bruises I ever used."

—Questions of the hour invariably pertain to matters of some moment.

—M. A. St. Mars, St. Boniface, Man., writes: "Dr. Thomas' Eclectric Oil is a public benefit. It has done wonders here, and has cured myself of a bad cold in one day."

—What is it that you must keep after giving to another? Your word.

—Mr. Josh Scales, of Toronto, writes: "A short time ago I was suffering from Kidney Complaint and dyspepsia, sour stomach and lame back; in fact I was completely prostrated and suffering intense pain. While in this state a friend recommended me to try a bottle of Northrop & Lyman's Vegetable Discovery. I used one bottle, and the permanent manner in which it has cured and made a new man of me is such that I cannot withhold from the proprietors this expression of my gratitude."

—The good die young. This is particularly true of chickens.

—That "tocsin of the soul, the dinner bell," as Byron calls it, suggests no pleasing reflection to the dyspeptic, bilious sufferer. He partakes, of course, but the subsequent torment is egregiously out of proportion to the quantity of food he eats, which lies undigested, a weight like lead in his unhappy stomach. There is a remedy, however, and its name is Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. No case is entirely hopeless.

—The air of the desert—"The camels are coming."

—One trial of Mother Graves' Worm Exterminator will convince you that it has no equal as a worm medicine. Buy a bottle, and see if it does not please you.

Carpets, like vegetation, come up in the spring.

—Hard and soft corns cannot withstand Holloway's Corn Cure; it is effectual every time. Get a bottle at once and be happy.

—The egotist is never at a loss for a subject for conversation.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

FARM FOR SALE.

One of the finest cultivated farms on the Island, with a

First-Class Hard Finished Dwelling

CONTAINING 8 ROOMS.

Also Barns, Stables, Granary and other Outbuildings.

(House and buildings worth at least $3,000)

Remember the address: 134 Johnson street, above Douglas street. jy10-1m

PROCLAMATION.

NOTICE

IS HEREBY GIVEN THAT CHANCELLOR Browning, Commissioner for the C. P. R., has this, the 20th day of July, 1889, issued a proclamation warning all persons from purchasing land from Samuel Greer in Lot 32, Group One, New Westminster District, as I have never offered for sale any land in said Lot 32, for that would be deception on the public, as the highest legal authority in British Columbia pronounced the title to be not—not one cent, no matter what Greer has been given. Now, if Your Lordship will adjust your wig and recover from your deep studies of Blackstone and the law reports, you will be able to see that the four Judges who threw your case out of Court last April were fully able to comprehend the difference between 32 and Pre-emption Record 1091, this being the Registered Number of my land on English Bay. Come down and see us. I have a few corner lots (with a smattering of coal) yet left. I must be sold, and the public will permit me buying them, notwithstanding Your Lordship's decision. Things will move just the same at English Bay.

All parties are hereby warned that Agnes and Smith have no title to Lot 32, as confirmed by the Legislature, and all sales will be void.

SAMUEL GREER.

Vancouver, July, 29. jy31-1m

INVESTMENT OR PARTNERSHIP

CITY COUNCIL.

The Sewerage Question Again Discussed—A Report Adopted.

The regular meeting of the city council was held Wednesday evening. His Worship Mayor Grant in the chair, Aldermen Harris, Coughlan, McKillican, Harrison, Goodacre, Wilson, Kelly and Vigelius.

COMMUNICATIONS.

From Mrs. A. E. B. Davie, acknowledging receipt of resolution of condolence and thanking the council therefor.

From Drake, Jackson & Helmcken, on behalf of Mr. W. Jensen, of the Occidental, who complained that his business was injured by the bad state of Johnson street, by reason of the delay in the work of filling up the sewer. Legal proceedings were threatened unless the matter was attended to within ten day. Referred to the sewerage committee.

From John J. Robson, asking for the position of resident engineer, at a salary of $2,500 per year. Received and tabled.

From Charles Wilson in reference to certain moneys and goods which had been taken from a thief and placed in charge of Mr. Bloomfield, requesting immediate restitution. Referred to police committee.

From Wm. M. Chudley asking for speedy payment of the sum of $1500, granted to the Jubilee Hospital. Referred to finance committee.

From J. P. Walls, on behalf of Sergeant Neil, asking for half of the fine of $100 inflicted on John Young for enticing sailors to desert.

From F. C. Smith, superintendent Oregon Iron and Steel Co., offering to furnish prices for pipe. Referred to sewerage committee.

From the secretary of the Tramway Co., in reference to the laying of the rails of the street railway, as the work of track making would soon be gone on with, and requesting that the right of way should be handed over to the company.

Ald. Coughlan said this letter was in reference to the necessity of providing a new stand for the public carriages.

Ald. Harrison wanted to know if the company would be allowed to lay the rails in the centre of the streets.

The Mayor explained that the by-law made it optional, but that the company would naturally prefer to keep to one side in narrow streets.

The by-law in relation to hack stands was then read at length, and it was shown that the board had the power to designate new hack stands at any time. Communication laid on table.

From Wm. Jones, asking for remuneration for damages sustained by him by the blocking of Johnson street by reason of the work of the sewer. Referred to city barristers.

From the city treasurer, stating that the assessment roll for 1889 was now ready to be placed in the clerk's hands. Received and acknowledged.

From Robert Foster, asking for an increase of pay as electric light engineer because of increased work with the new machines. Referred to electric light committee.

From Chas. E. Pooley on behalf of the owners of land on the banks of Colquitz river, referring to great damage done to them by turning aside waterflow of the said river, and asking for redress for same under threat of legal proceedings. Referred to water committee.

PETITIONS.

From 31 residents on Spring Ridge, asking for street extension. Referred to street committee.

From seven residents of Belcher street, asking that the sidewalk on that street be repaired. Referred to street committee.

From numerous residents in James Bay, petitioning that James Bay bridge be strengthened. Referred to street committee with power to act.

From residents of Montreal street, asking for a six-foot sidewalk. Referred to street committee for report.

AN OLD ACCOUNT.

An old account of the Albion Iron Works, for supply of hydrants and crusher dies, was read. Ordered to be paid.

STREET GRADING.

The contract for grading John street was awarded to A. Beswick, the lowest tenderer.

For gravelling Superior street: A. Beswick, $1,848; John Haggerty, $1,820; N. Leclaire, $850.

For grading Henry street, the contract was awarded to Noel Leclaire at $300.

REPORTS.

The street committee recommended the grading of a portion of Dallas road, and the water committee recommended the purchase of a piece of land from Mr. Robert Ward, both of which were received and adopted.

THE SEWERAGE QUESTION.

The council then, on motion, went into committee of the whole, to discuss the sewerage question. The following report from the sewerage committee was presented and read.

Victoria, B. C., August 14, 1888

To His Worship the Mayor and Board of Aldermen:

GENTLEMEN:—We, your Drainage Committee, beg to report that on Tuesday evening, the 13th inst., your committee interviewed Mr. Pickering on sewerage matters, more particularly depth and sizes of sewers, and your committee are of the opinion that it is advisable to adopt the combined system as laid down by Mr. Pickering, amending the main outfall as suggested by him on Humboldt street.

We further recommend the preparation of a by-law, with a view to borrow a sum of money, the repayment of which to extend over sixty years, by equal annual instalments to cover both principal and interest, for prosecuting the work immediately, and the appointment of an engineer under Mr. Pickering to carry out the work.

All of which is respectfully submitted.

D. R. HANNA,
L. GOODACRE,
E. L. KELLY.

The report was amended to read 50 years instead of 60 years.

Ald. Harris considered all along that the scheme as laid down and submitted in the report was the right one and that the combined system, as laid down by Mr. Pickering, was the only one they could adopt. He was in favor of it. That gentleman had told him that since his arrival in the city he had no cause to alter his ideas in the slightest.

Ald. Kelly wanted to see the sewerage question settled. It was killing him. The combined system was a system of 50 years ago, and had on it the brand of "old-fogyism."

Ald. Harrison said that he held, as a practical man that a sewer with a fall of one foot in 900 feet was not the correct thing, and no one could convince him that it was. He was in favor of Mr. Pickering's scheme in a redressed form. If he would abandon the sewer from Discovery street on to get a six foot fall he would agree to the scheme.

Mr. Pickering, on invitation, then stepped forward and said that he would like to put a few facts before the council. The total length provided for in his linear system of sewerage was 40,976 yards. Of this amount 25,000 yards of this was of pipe sewers, and of these 26,000 yards of 10 and 9 inch pipe—a size which was as small as that used in any separate system, so that practically the council could see that a great portion of his system was the separate system. With regard to the proposition to lift the Ross Bay outfall sewer, he might say that he would be very glad if he could get a little greater fall than he had set down, but by doing this he would only destroy the upper part of the city in the future. When they overthrew their flow of water, his rate of fall was ample. With regard to the lifting of the sewer, the council could have the sewer lifted 5 ft. or 5½ ft. provided that it was taken into Chatham street. By doing this they would exclude from the system Discovery street, Pembroke street, nearly the whole of Blanchard avenue, Princess street, Queen's avenue, and the Work estate, and the drainage of all this territory would be driven into the harbor either directly or indirectly. Provided, on the other hand, that they carried the scheme out as he laid it down, they could catch all the drainage of the localities named, and would also be able to run up the Stanich road for an almost indefinite length.

Ald. Coughlan asked why, getting such a large portion of the pipes in accord with a separate system, they could not have the whole system the same.

Mr. Pickering—If you contract the size of the sewers at the lower end of the city they will not work. It will be a vast advantage to you by and by to take in as much surface water as you please, and to be able to run it away as you like.

Ald. Coughlan—What will you do with your system when we are not getting any rainfall?

Mr. Pickering—Well, the present time is as dry a season of the year as you get, and I calculate that with the natural sewer on Johnson street, which is not more than one-third of your water from the city, would be ample to flush out your sewers. The city is growing fast, and in twenty years hence the utility of putting in large pipes will be thoroughly demonstrated. The separate system is never adopted in England unless it cannot possibly be helped. My system is a medium between the separate and combined.

Ald. Coughlan—If the separate system works as well as you have told us it does, under great difficulties, how much better will it work in a place like Victoria, where it has not those difficulties to contend against.

After a long discussion on the merits of the two systems, a repetition of the last special meeting on the subject, the Mayor asked Mr. Pickering if he was perfectly satisfied regarding the specific gravity of the sewers and their ability to keep themselves perfectly self-cleansing.

Mr. Pickering was certain of it.

Aldermen Vigelius, Wilson and McKillican spoke in favor of Mr. Pickering's scheme.

Aldermen Coughlan and Harrison asked that the clause in the report relative to the appointment of an engineer be struck out.

This was done, and the report was passed and adopted on a general vote. The names, which were as follows, were called for: Ayes—Aldermen Vigelius, Harris, Wilson, Goodacre and McKillican. Noes—Aldermen Kelly, Coughlan and Harrison.

THE WATERWORKS ACCOUNT.

An account was read from the Albion Iron Works for the balance due on the cost of the 16 inch main, amounting to $22,809.77.

The account was received and referred to the water committee, the water commissioner, and the finance committee, with power to award payment, if account found correct, according to conditions of contract.

AMENDED BY-LAW.

Ald. Coughlan asked leave to introduce a by-law amending by-law 150 at the next meeting of the council.

NOTICE OF MOTION.

Ald. Harris gave notice of motion to the effect that a sum not exceeding $750,000 be voted to construct the main outfall sewer to Ross Bay and tributary thereto.

ACCEPTANCE OF TENDERS.

It was moved by Ald. Coughlan and seconded by Ald. McKillican that Mr. Hill's tender of $420,000 for constructing Mr. Pickering's sewer system be accepted, subject to the action of the ratepayers. Carried.

The council then adjourned.

Big Ships from Eastern Seas.

The New York *Mail and Express* of recent date says: A monster sailing vessel called the Buckingham, of 2,900 tons, came into this port on Monday. The vessel was laden with jute and other East Indian goods. She had left Calcutta only one hundred and nine days before. The Buckingham is owned in Liverpool, and belongs to a type of iron vessels of which large numbers are being built in the British Isles. The largest vessel of the kind afloat is the Falcrave, whose best time from Calcutta to this port the Buckingham has surpassed by forty days. The Buckingham, like the other vessels of her class, is four-masted and square rigged in all but the jiggermast, and carries but a limited number of men, twenty-nine on this voyage being sufficient for her wants. These vessels promise to monopolize the Eastern trade, as they combine two very essential qualities—economy and speed. Another famous ship came into port on Tuesday from Yokohama, Japan. The Glenshiel, as she is called, of the well known Glen line, has won a splendid record as one of the fastest China vessels afloat. The Glenshiel is a steamship of 3,003 tons burden. When she came into port she was laden from stem to stern, carrying over 5,250 tons, or 40,300 packages of tea. She made the trip from Yokohama to New York in 29 days. She carries fifty-nine men besides her commander. Speed is on the side of the steam vessel; But the question is whether it may not yet be found that for those long voyages speed is too dearly bought.

Nitro-gelatine can be burned as safely as it is wore punk; it can be struck, or a shock given to it by a fall or by a projectile without rousing it to action; but when detonated it is capable of immense destruction, even though not confined. Wet guncotton possesses similar safety features. For this reason these two compounds are regarded by torpedo experts as specially suitable for torpedo use. It is claimed that the U. S. steamer Vesuvius, though carrying several tons of nitro-gelatine for her pneumatic guns, is not so likely to be exploded as if she carried an equal amount of gunpowder

The Canadian Pacific Land and Mortgage Company, Limited, (Foreign).

Registered the 10th day of July, 1889.

CERTIFICATE OF REGISTRATION.

THIS IS TO CERTIFY THAT I HAVE THIS day registered "The Canadian Pacific Land and Mortgage Company, Limited, (Foreign)" under the "Companies' Act," Part IV, Registration of Foreign Companies.

The objects for which the Company is established are:

1. To purchase, take under any concession, lease, or in exchange, hire or otherwise acquire, settle, improve, farm and cultivate lands of any tenure, franchises and hereditaments situate in the Dominion of Canada, the United States of North America, or elsewhere, including any mines, minerals, ships, steamboats, barges, and other vessels, engines, railway wagons, tanks, reservoirs, manufacturing plant, apparatus and stock in trade, and any other real and personal property of whatever description, whether the same be unencumbered or subject to any mortgage, charge, lien, easement, privileges, licenses, concessions or otherwise, and to develop the resources of any such properties by building any kind of structure thereupon, planting, reclaiming, clearing, mining, quarrying, excavating, damming, draining, farming, and otherwise dealing with and working the same, and to stock lands and farms, and to breed, grow and deal in all kinds of stock, cattle, horses, sheep and produce, and to erect and maintain therefor suitable buildings and structures, including slaughtering, refrigerating, and converting establishments.

2. To invest money by way of advance, or loan at interest to any person or persons, or corporation, upon the security of any property and securities whatever, real or personal, including produce, crops and manufactures, government and all other stocks, bonds, mortgages, or securities, whether British, colonial, or foreign, and generally to buy, manufacture, deal in and sell all kinds of goods, chattels, merchandise, produce and effects.

3. To aid, encourage and promote immigration, emigration and colonization, and for such purposes to lend and grant any sums of money, and to act as agents therefor.

4. To work, win, convert, sell, use or otherwise deal with all or any mineral property of the Company, to construct or acquire, take concessions of purchase or lease, hire, maintain, improve, work and use, or aid in, or subscribe towards the construction, maintenance, improvement and working of roads, ways, streets, tramways, wire tramways, electric or other power, telegraph and telephone lines and works, or other means of communication or appliances of a similar nature, railways, railway stock, locomotives, engines, docks, piers, harbors, quays, wharves, landing stages, jetties, slips, slaves, bridges, canals, channels, wells, buoys, lights and beacons, viaducts, aqueducts, water works, dames, culverts, ditches, warehouses, factories, shops, churches, chapels, schools, libraries, institutes, inns, foundries, brick kilns, reduction works, gas and water works, electric lighting or power works, hotels, mills, undertakings, works, and other buildings and structures, of every description, and for the above purposes to enter into and carry into effect any contracts, and apply for, accept, and carry into effect such concessions, licenses or authorities as may be deemed necessary or advisable.

5. To acquire running powers, rights or easements over and to make arrangements with any companies or persons for the joint working of any railway, tramway, or line of electric wire, or other similar means of communication.

6. To build, purchase, charter, hire or otherwise acquire, maintain, repair and use steam and other ships and vessels, and to carry on the business of ship owners, lighterman, wharfingers, dock owners, warehousemen, ship chandlers, commission and shipping agents, and to levy cranage, anchorage, lighterage and other dues and tolls, either in connection with the other businesses of the Company, or as an independent source of profit.

7. To transact all manner of agency and commission business, and in particular to act as agents for any persons or corporation in the purchase, sale, or management in any way of lands, hereditaments and other property in the Dominion of Canada, the United States of North America, or elsewhere, where the Company may for the time then being be carrying on business, and to carry on the business of general, commercial, mercantile, shipping or forwarding agents, or agents for any railway, steamship, or other company.

8. To accept and hold any property whatsoever upon any trust whatever, and to make advances against the same, and to issue debentures there against, and to act as trustees, attorneys or agents of or for any persons, living or dead, or of any company, corporation, public body or supreme government, and also as real or personal representatives of any deceased persons.

9. To transact all business connected with the investment and loan of money at interest, to receive money on deposit, and generally to transact and carry on every description of banking, discount, exchange and financial business.

10. To make, draw, accept, indorse, discount and execute promissory notes, bills of exchange, and other negotiable instruments.

11. To build, lay out, settle, colonize and develop towns and villages on the lands acquired or controlled by the Company from time to time.

12. To purchase or otherwise acquire the exclusive or limited right to use information as regards any inventions, whether patented or not, which may seem capable of being used for any purposes of the Company, or the acquisition of which may seem calculated, directly or indirectly, to benefit the Company, and to acquire any grants, charters, concessions, patents, patent rights, monopolies, brevets d'inventions, copyrights or licenses, and to use, exercise, develop, grant licenses in respect of, or otherwise turn to account the property, rights and information acquired.

13. To take or otherwise acquire, and hold or sell, shares, stock, debentures, or any other interest in any other company, whether British or foreign, in which the liability of the members is limited, having objects altogether or in part similar to those of this Company, or carrying on any business capable of being conducted so as directly or indirectly to benefit this Company.

14. To purchase or otherwise acquire or undertake all or any part of the business, property and liabilities of any company, corporation, society, partnership or persons carrying on, or about to carry on, any business which this Company is authorized to carry on, or which is in any respect similar to the business for the time being of this Company, or which is capable of being conducted so as directly or indirectly to benefit this Company, and to make and carry into effect arrangements with respect to the sharing of profits, union of interests or amalgamation, either in whole or in part, of this Company with any such company, corporation, society, partnership or persons.

15. To dispose of by sale, lease, underlease, exchange, surrender, mortgage, or otherwise absolutely, conditionally, or for any limited interest, all or any part of the undertaking, property, rights or privileges of the Company as a going concern or otherwise, to any public body, company, society or association, or to any person or persons, and in particular to any other company having objects altogether or in part similar to those of this Company, and to accept as the consideration, or part of the consideration for such disposal money, stock shares, debentures or other securities, either for distribution in specie among the members or otherwise.

16. To subscribe for, take, acquire, hold and sell the stock, shares, scrip, certificates, bonds, obligations, debentures and securities of any other company, or of any supreme, municipal, public or local board or authority.

17. To borrow and raise money for the purposes of the Company in such manner and upon such terms as the Company shall think fit, and to secure the repayment thereof by bonds or debentures, or by redeemable or unredeemable debenture stock (such bonds, debentures and debenture stock being made payable to bearer or otherwise) or by any other instruments, or by bills of exchange, or promissory notes, or in such other manner as may be determined, and for any such purposes to charge all or any part of the property of the Company (both present and future), including the uncalled capital.

18. To obtain any provisional order or Act of Parliament, or legislative provision, decree or order of any colony, foreign government, body or authority, to incorporate the members as a body politic or corporate, in accordance with the laws and constitution of any country or state in which the Company shall be carrying on, or be desirous of carrying on, any of its operations, and to take all steps and do all things necessary to give the Company, or any company subsidiary thereto, a legal domicile in any such country or state, and such legislative powers as will facilitate the carrying into effect of the objects of the Company therein.

19. To give any guarantee of whatever description in relation to the stock, shares, debentures or other securities or obligations of any company or supreme, public, municipal or local body or authority, and generally to guarantee the performance of any covenant or obligation.

20. To transact all business connected with the investment and loan of money at interest.

21. To allot the shares of the Company credited as fully or partly paid up as the whole or part of the purchase price for any property purchased by the Company, or for any valuable consideration.

22. To appropriate and apply such parts of the capital of the Company as may be expedient to the payment of such brokerage, discounts and other expenses as may be deemed incidental to the formation and promotion of the Company, and the placing of its shares and debentures, or any part thereof.

23. To aid any government or state, or any municipal, local or other body politic or corporate, or company or association, or individuals with capital, credit, means or resources, for the prosecution of any works, undertakings, projects or enterprises.

24. To do all or any of the above things in any part of the world, and either alone or in partnership or conjunction with any person or other association, and either as principals or agents, and to contract for the carrying on of any operation connected with the Company's business by any person or other association.

25. To carry out the objects comprised in each paragraph of this clause in as full and ample a manner, and construed in as wide a sense as they would be construed if each paragraph of this clause defined the objects of a separate, distinct and independent company, and so that such objects shall not, except where otherwise expressed in such paragraph, be restricted by reference to the objects indicated in any other paragraph.

26. To do all such other things as are incidental or conducive to the attainment of the above objects, or any of them, or which the Company shall consider incidental or conducive to the attainment of the above objects, or any of them, and so that the word "company" in this memorandum shall be deemed to include any partnership or other body of persons, whether corporate or incorporate, and wherever domiciled.

The amount of capital stock of the said Company is £250,000, divided into 25,000 shares of £10 each.

The place of business of the said Company is located at the City of Victoria, in the Province of British Columbia.

In testimony whereof I have hereto set my hand and affixed my seal of office this 10th day of July, 1889, at the City of Victoria, in the Province of British Columbia.

(L.S.) C. J. LEGGATT,
Registrar of Joint Stock Companies.

LOCAL PARAGRAPHS.

News of the City and Province Briefly Told.

—Ice Cream at Stelin's. *

—Navigation is again difficult owing to smoke.

—Zylonite collars and cuffs at Daley's 111 Government street.

—Table cutlery, in steel and silver-plate, at McLennan & McFeely's. *

—On Friday last Mr. G. E. Mesher, W. P. Estate, broke his leg by a fall.

—Largest stock of house furnishing goods in the province at John Weller's. *

—Fruit jars and jelly glasses in any quantity, all sizes, at John Weller's. *

—Mr. Pickering has been invited by the city council of New Westminster, to give an opinion on a system of sewerage for that city.

—"We lead" for elegance, style and beauty of finish. Hall & Lowe, Government street. *

—The Buffalo Egg Poacher and Harris' Fruit and Jelly Press at McLennan & McFeely's.

—Ice cream delivered to all parts of the city. New England Bakery. Telephone call 161.

—The arrival of the schooner Pathfinder with the prize crew on board, is daily expected.

—If you have anything to dispose of take it to Brown & Myers, auctioneers, 64 Yates street. jy23-m

—The Nanaimo *Free Press* announces that its daily and semi-weekly editions will be continued.

—The best place to secure a good suit to order, is at Campbell & Simpkins', 88 Government street.

—A dispatch from San Francisco today announces the arrival of the Umatilla this morning.

—For the latest American designs in Upholstery. Try Hastie & Lockhart's, 62 Government street. *

—Sideboards that have no equal in design and price at Hastie & Lockhart's, 62 Government street. *

—Mrs. McLennan, business and test medium, removed to 38 Kane street. Sittings daily from 10 a. m. *

—The upper portion of the Poodle Dog extension will be utilized by that restaurant for lodging purposes.

—A monkey brought out on the bark George from the Orient has been sold to an Esquimalt saloon-keeper.

—The finest assortment of Bedroom sets for the least money at Hastie & Lockhart's, 62 Government street. *

□—The steamer Princess Louise is loaded down with good things for the inner man on the present trip north.

—Work on the foundations of the new brick buildings to be erected on either side of Langley street is going ahead rapidly.

—The new tug Lorne, probably the finest vessel of the kind on the coast, will, it is expected, make her trial trip in a few days.

—Two fine building lots on Toronto street, James Bay, for sale cheap. Apply at Blanchard's drug store, 115 Government street. *tf

—A runaway occurred on Yates street near Douglas this morning. The occupant, a stranger, was thrown out and cut on the head.

—A couple of intoxicated young Klootchmen attracted attention on Government and Yates street about 7 o'clock last evening.

—H. S. Keefer will build the new market building at Vancouver. It is to cost, exclusive of weigh scales and other fixtures, $15,564.

—A horse of Contractor Mesher's ran away to-day and threw the driver out on Douglas street. He was considerably bruised by the fall.

—About forty feet of the sewer excavation on Government street fell in yesterday. Workmen are busily engaged today in shovelling it out.

—The Vancouver Street Railway Company has been given until April 1st for the completion of their lines, to enable them to the electric system.

—The house and lot on Fisguard street owned by Mrs. Grancini, has been sold to Mr. Chas. Elliott, who recently arrived from England to make this his home.

—Confectionery, American Creams of all kinds constantly on hand. Fruit, Tobaccos and Cigars, G. W. Bloom, 86 Gov't. St., three doors south of P. O. *

—Mrs. Angus McKenzie, of Nanaimo, was kicked fair in the mouth by a horse on Wednesday, and although the lady's front teeth were broken there was no flesh wound.

—Just arrived at Hastie & Lockhart's a large consignment of the very latest designs in Linoleums, Carpets and Mattings. Call before purchasing elsewhere. 62 Government street. *

—Mr. J. Enos, of Nanoose, has disposed of his farm, buildings, stock and six claims to Mr. U. E. Dickenson, of Wellington. The consideration is said to be in the neighborhood of $9,000.

—A water main at the corner of Johnson and Store streets burst this morning. The escape of water was immense, which found an outlet in the completed portion of the sewer. Six men were set to work to repair the break.

—As one of the Chinamen working on Pemberton's new building, Yates street, was putting up a scaffold this afternoon, a piece of plank fell from the top of the building and struck him on the top of the head, but he was not injured to any extent.

—The *Columbian* says: "An observation made through the bottom of a water tumbler last night revealed the fact that the extra luminous ring which was noticed lately round the *World* is lacking. The *World* is there, just the same, however, and as bright as usual." A very neat way of stating that our Vancouver contemporary has reduced its size and has not suffered by so doing.

—Chas. McCarthy, the star in "One of the Bravest," gave an exhibition this morning before Chief Engineer Deasy and members of the fire department in life saving tactics, which was admired for its precision and deftness. The exhibition of the usefulness of the Pompier ladder and life saving net will be re-produced at the Victoria Theatre this evening, which is a marvel in itself. The fire scene in "One of the Bravest is certainly the best ever seen here.

SPORTS AND PASTIMES.

Watson Replies to McIntyre—Tesmer and Gaudaur to Row.

The Nanaimo sports are all agog over the great wrestling match to-night between McLeod and Schumaker. Both parties are confident of winning and to-day McLeod and his backers wished to raise the stakes from $500 to $1,000 per side. In all probability the challenge to raise the stakes will be accepted by the Schumaker men.

THE CHAMPION SPEAKS.

Tom Watson was interviewed to-day in regard to a statement in this morning's *Colonist*, which stated that Watson announced his willingness to run again and that he wanted revenge on McIntyre. Watson says that no offer was made to run again, for the simple reason that McIntyre did not ask for another race. Regarding his seeking revenge, the champion did not seek revenge from a man he defeated. Watson says he can't make a match with McIntyre for some time. His time is occupied with the Victoria base team until the 20th of September, and arrangements are in progress for a race with Ross, a California runner. Thereafter in California will not come off before October 1st, if a match is made. After that date Watson says he will accommodate McIntyre if the latter wishes to make a race.

RACE BETWEEN TESMER AND GAUDAUR.

Articles of agreement have been signed between Tesmer and Gaudaur for a four-mile (oar) race, for $1000 a side, at McKeesport, Pa., September 14.

The Rev. John Alex. and Mrs. Bowie

Will continue their mission, God willing, in the Wesley Methodist Church, Pandora street, for nine days, from Lord's Day evening, August 25th, to Tuesday, Sept. 3rd. Further details will be given in Saturday's issue of this paper.

I. O. G. T.

Perseverance Lodge No. 1, I. O. G. T., has elected the following delegates to the Grand Lodge: Mrs. L. Hall, W. E. Losee, W. J. Mable and J. A. Hastie. Alternatives, Robt. J. Plummer and A. Hodgett. Robt. J. Plummer has been recommended as Grand Lodge Deputy for the ensuing year.

The Wife Beater.

A sad story comes from Quadra street of a woman's abuse at the hands of her husband. The woman is in a delicate condition and is a hard worker, having to support herself. A short time ago she sought refuge from her husband's ill-temper and was kindly cared for by a neighbor for two nights.

Temple of Thespis.

The citizens of Nanaimo are in ecstasy over their new opera house which is nearly completed. It was erected by Ald. J. Maher, one of Nanaimo's most enterprising citizens. The architect was W. Ridgway Wilson of this city. It will be ready for occupancy in about one month.

Hand Shot Off.

The son of Mr. A. B. Gray, of Wharf street, a fine boy of 14 years of age, now being educated in Scotland, met with an unfortunate accident a few weeks ago. While handling a gun the charge exploded and the contents passed through the left hand, which it was subsequently found necessary to amputate. The young fellow is now rapidly recovering.

Naval Picnic.

The warrant officers of Her Majesty's fleet, accompanied by their friends, in all numbering eighty, went out to Colwood to-day in two busses, where a picnic was held. There were the usual number of games and sports and such like which conduce to make up an enjoyable day. Among the party were a number of ladies and children.

The Salmon Run.

The *Columbian* says the big sockeye run has come to an end, the boats now only averaging 75 fish each. Spring salmon nets are being put out and a good haul of these fish is expected. The cohoes are not yet due, and the majority of the fishermen are of opinion that when they do come they will be plentiful. Preparations are being made to receive them.

Obituary.

On Friday last at Ashcroft, Mrs. Margaret Ann Lehman suddenly expired from causes not yet learned. Deceased was the wife of Isaac Lehman, J. P., and leaves five children to mourn her loss. The remains were interred at Ashcroft, where a plot of ground to answer for a cemetery has been purchased by public subscription. Mrs. Lehman's was the first interment.

For the South.

The Walla Walla sailed for San Francisco at 1 o'clock this afternoon with the following passengers from this port: Mrs. Mallette and two children, F. J. McDonald, W. H. Harris, D. M. Waters, James Brown, Miss May Falconer, Miss Dolan, Mrs. Hayes, L. Henry, Jas. Otis, Mrs. Joslyn, Mrs. Taylor and infant, J. E. Wiley, H. Bornstein, C. A. Robinson, C. S. Douglas, Jno. Williams and H. M. Grindlay.

The Hop Season.

Hop picking will begin in about a week or ten days in the White River and Puyallup regions, W. T. The Indians are beginning to flock in, many of whom have come long journeys from the north. The price to be paid this year will probably be $1 per box. This is a little lower than the ruling price for last season. The brokers are already on the field attempting to make rates, or to furnish help for the pick.

Fast Trotting.

At the Keokuk, Ia., races Satelite trotted six miles in sixty minutes, fifty-three and three-fourth seconds, breaking all previous records. The last mile was made in two minutes, forty-three and a quarter seconds.

Maud S. is to make an effort to smash her as yet unbeaten record of 2.08¾ over a mile course, which she accomplished at Cleveland in 1885. Mr. Robert Bonner, the owner of the celebrated mare, says he will not be surprised to see her make the mile in 2.7¾.

Annoying the Seal.

There are a few boys and young men who seemingly do not know any better than to annoy the young seal presented to the park through the kindness of Mr. A. J. McLellan. A favorite mode of annoying the seal is to poke him with a stick until he barks, presumably with pain. The park committee are much annoyed at the action of these young fellows and think it very low. The park keeper should keep his weather eye open for the offenders and make a forcible example of them.

Must be Remedied.

A radical change is necessary in the E. & N. railway drawbridge. A flagrant case occurred this morning, when the steamer Princess Louise wished to steam through it. After the first signal of four whistles fully ten minutes passed without any sign of recognition. Another signal was blown and finally five separate times did the whistle shriek out the four-whistle signal before the bridge was opened. It is needless to say that this dereliction of duty is severely condemned by captains, and this case in particular is not an isolated one.

1889-90

For the fall and winter trade of 1889-90 Messrs. A. Gregg & Son, Artist Tailors, Yates street, have just received a large and well-selected stock of imported woollens, comprising Scotch and English tweeds, fine worsted diagonals, new novelties in trouserings and a large range of the most fashionable shades and designs of light and heavy overcoatings. Right here we wish to impress on the minds of the gentlemen of this province that the stock was never surpassed by any heretofore imported to this province, these being the same goods as those sold by foreign manufacturers for the New York trade. Messrs. A. Gregg & Son invite an inspection of these goods. *

Hall-Cummings.

At the residence of the bride's mother, Mrs. J. L. Cummings, 45 Second street, Work estate, the marriage ceremony of Lewis Hall, D.D.S., and Miss Sophia M. Cummings was solemnized last evening, the Rev. J. E. Starr officiating. The bride, who was attired in white brocade, trimmed with red lace with tulle veil and orange blossoms, looked radiant and was assisted by Miss Leigh, who performed the always pleasing part of bridesmaid. The groom was supported by his brother, Mr. G. A. B. Hall. After the ceremony a bridal dinner was partaken of and an enjoyable evening spent in conversation. Mrs Hall was the recipient of a tea service, the gift of members of Perseverance Lodge, I.O.G.T.

Driving Accident.

People on Fort street yesterday afternoon at about 5 o'clock were startled by a horse attached to a light road cart tearing down the street at a fearful pace. In a moment everyone looked for the occupant, who was lying on the street within a few feet of the corner of Blanchard and Fort streets, apparently lifeless with blood streaming from his head from several contusions. It proved to be Mr. John Howard, of Esquimalt. The unfortunate affair was caused by the horse breaking away from his fastening in front of The Hall and tearing down the street with Mr. Howard as sole occupant of the rig and utterly powerless. Dr. Duncan was called in to attend the unfortunate man, who pronounced the injuries flesh wounds and not of a serious character.

POLICE COURT.

(Before Hon. A. N. Richards, Q. C.)

W. Leith Ross, charged with bringing stolen money into Canada. The depositions were read over and the prisoner committed for trial.

Henery Beneech, charged with obtaining money under false pretences, appeared very dejected in the dock. M. Marbeuf gave evidence when a remand till Saturday was granted.

ONE OF THE BRAVEST.

Presentation of the Championship Medal to Thomas Watson.

The entertainment at the Victoria Theatre this evening will excel the first appearance of the company last night. During the performance the beautiful gold medal purchased by a number of Mr. Thomas Watson's admirers, will be presented to the young man. His connection with the Victoria hose company, for whose benefit the performance will be given, has been taken advantage of to make the presentation during the performance of a real fireman's play. The many friends of the champion of the Pacific coast should attend the entertainment this evening to show their appreciation of our young athlete.

PROVINCIAL EXHIBITION,

The Arrangements in Progress for the Next Annual Show.

A general meeting of the exhibition celebration committees was held in New Westminster city hall on Saturday evening. Mr. S. T. Mackintosh was elected permanent secretary and Mr. J. S. C. Fraser, treasurer. The sports committee reported recommending that a full list of sports be held and asked for an appropriation of $750. The St. Andrew's Caledonian society presented a communication asking that the Scottish games be held under the auspices of the society, the prizes to be paid by the general committee. The procession committee asked for a grant of $400. The ball committee asked for an appropriation of $300. The decoration committee reported that they had decided to erect two arches, one representing the salmon industry and the other the lumber industry. Assistance in this proposition had been offered by cannerymen and lumbermen. The committee propose asking citizens to decorate their residences, and merchants to decorate their stores and offices. The committee asked an appropriation of $300. The fireworks committee suggested that there be no display of fireworks, but only a torchlight procession on the river, for which an appropriation of $300 would be required. Mr. H. G. Ross reports that there will be no trouble in having three Indian bands to take part in the celebration and a large number of Indians. The reports were all laid over till the next meeting, when it is expected the collection committee will report. The following committee were appointed. Horse racing: Geo. H. Raymond, J. M. Wise and Herbert Gilley. Rifle matches: A. F. Cotton, J. S. C. Fraser, F. R. Glover and Jas. Wilson. On motion H. B. Ladwell, R. Wintemute and O. E. Darling were added to the decoration committee, and D. Chisholm, M. P. and W. N. Bole, M. P. P., were added to the executive and reception committee. The meeting then adjourned till Wednesday night at 8 o'clock.

PERSONAL.

Items Telling of Movements of Well Known Persons.

Rev. T. DeWitt Talmage arrived on the Islander last night, and left this morning for Portland via Tacoma. His lecture at Vancouver was largely attended.

Chauncey M. Depew is trying to persuade Mr. Gladstone to visit America and accompany him on a trip to Alaska.

Rev. Frederick Mayer of Michigan draw a $5000 prize in a lottery and his congregation expelled him from the church.

Mrs. Wilson and J. Wilson, Jr., (Pemberton street) will leave to-night for Harrison Hot Springs.

Capt. Irving being slightly indisposed did not go north on the Princess Louise.

W. A. Baillie-Grohman left for Vancouver last night. He will return in a day or two.

Gideon Robertson, who came from Vancouver to give the government candidate a lift, returned home this morning.

Sir Wm. and Lady Hoste registered at the Windsor Hotel, Montreal, last week. The Windsor is the Driard of Montreal, and there the nabobs most do congregate.

Mr. Marbeuf, of the Poodle Dog, will leave take notice.

C. D. Rand, of Vancouver, and wife are at the Clarence.

Ex-Mayor Henry, of New Westminster, arrived on the Islander last night.

E. E. Renouf has been confined to his house for the last day or two with a bad cold.

Mrs. W. J. Taylor left for San Francisco to-day on a visit to friends there.

H. Bornstein went to San Francisco today on business matters.

Postoffice Inspector Fletcher came down from the mainland last evening.

Mr. Geo. Frye, of the customs service, is around again.

TALMAGE.

To the Editor of the Times:

Sir—Dr. Talmage's advice to young men, "stick-to-itiveness," to use a condensed term, is a very excellent thing in its way, the *sine qua non* of success. One cannot help thinking, however, that if all men should adopt such advice, competition would intensify, and that men of the intellectual stamp of Dr. Talmage would be regarded as simply common place. Let all men strive as Dr. Talmage has striven, thus diminishing the intellectual gap which separates the former from the latter, and there could be but one result, Dr. Talmage's empiricism would be dispossessed of novelty. Desirable as it is that all men should strive to do their level best, Dr. Talmage profits by their failure to do so. Men seem to be handicapped from the outset of their career by the inexorable law that inclination is stronger than conviction. Most men arrived at the age of twenty-one, are profoundly convinced that they should concentrate their energies on a given vocation. But! That's it, But! But, in this instance, is as big a stumbling block as the little "if" which we have heard about. But for those "wild oats," but for this promising scheme, but for that promising offer, all would have been well. The "buts" and the "ifs" in the pathway of life are so numerous that men are bound to stumble over them, while he who stumbles the fewest times is rated the successful man. But even if all men strove their best, what would be the difference so far as moral results are concerned. Inequality would exist for all. The moral tension would not be lessened in the least. We doubt whether there would be fewer impecunious persons in the world. There was poverty and suffering a thousand years ago, and though the world has improved, there is suffering still, and there always will be. Such lectures as Dr. Talmage's, however, are timely—if they help one man in a thousand they have not been in vain. DECISION.

SUPREME COURT.

(Before His Lordship Sir M. B. Begbie, C. J.)

The Indian, Ite Ma Sak, who was convicted on the 1st of August before Mr. Pidcock, Indian agent at Alert Bay, and sentenced to 6 months' imprisonment for celebrating the Indian festival known as "Potlatch" at Alert Bay, was yesterday brought before the Chief Justice on an application for a writ of *habeas corpus*. It appears that although convicted and sentenced to six months' imprisonment, the warrant of commitment sent to the jailor with the prisoner was a warrant of commitment for trial and not in execution. The mistake having been discovered by the Indian agent after the rule *nisi* had been granted, left with the warden of the gaol a warrant of commitment in execution. Mr. S Perry Mills, who appeared for the Indian, raised several points on the warrant; one of them appeared to be somewhat of a puzzler. He wanted the Chief Justice to decide what overt act could make a man guilty of the offence of "potlatch." Was "potlatch" a gift, a loan, or the payment of obligations? The statute declares that "potlatching" was illegal; it was not an offence at common law, it must be therefore the legal result of certain facts; then the facts should be stated in the commitment, so that the court might judge whether the facts amount in law to "potlatch" as for instance, on a plea of the statute for gaming, the particular game ought to be set out, because what is gaming is a matter of law; therefore what is a "potlatch" is a matter of law.

His Lordship considered that some of the other points raised were fatal without deciding the potlatch point, and discharged the prisoner.

Mr H. D. Helmcken appeared for the Indian Department.

Passengers Arriving.

REAL ESTATE.

W. R. Clarke, Auctioneer.

Auction Sale of Valuable Property in New Westminster District.

I am instructed by SAMUEL GREER, Esq., to sell by public auction at the Oriental Hotel,

Saturday, 24th September,

AT EIGHT O'CLOCK, P. M.,

A portion of his

Pre-emption Claim No. 1003

ENGLISH BAY,

Adjoining the China Steamship Docks and Wharves.

Block 8, containing 50 Lots, more or less.

The attention of the public is called to this valuable sale, this being the first time that any water front property in this locality has been offered either by private or public sale, and it is the intention of Mr. Greer that Victorians shall receive the benefit.

The Legislature of British Columbia, by a vote of 32 members, have decided that Mr. Greer is entitled to his Crown Grant for said Pre-emption Claim 1003.

The lots will be put up at an upset price of from

$300 to $350 per Lot,

and purchasers are only asked to deposit from $25 to $50 on each lot, according to locality, and balance when deeds are completed. All deeds, temporary or other, must be paid for by the purchaser.

Only those that can exercise the franchise and are on the voters' list will be eligible to purchase any of the above described property, and then only one lot each.

This land adjoins the property of a Syndicate with the Hon. John Robson as one, who refuses to issue a Crown Grant for this property, notwithstanding the commands of Parliament.

FOR PLANS OF LAND

and agreement of sale, apply at the Auctioneer's rooms, Store street.

Applicants wishing to secure any of these lots at the upset price can apply as soon as they please and get the first selection.

W. R. Clarke,
au19-d&w-td Auctioneer.
